CHAIRMAN'S COMMENTS

It seems only a very short time since we were writing our contributions for the January Newsletter - and suddenly the deadline for sending material to Elizabeth Melrose is upon us and we must be about our business lest the wrath of the Editor fall upon us!

All members of our Society will join with me in congratulating Mr. F.T. Baker, for many years the Chairman of the S.L.H.A. and currently our President. Mr. Baker has been awarded an honorary degree of Master of Arts from the University of Hull in view of his long association with the Tennyson Society as a founder member from 1961 and in recognition of his contribution to Tennyson Studies through the formation of the Tennyson Research Centre in the Lincoln City Library of which he was at that time Director. We would all like Mr. Baker to know how pleased we are as a Society that a University in a neighbouring county has conferred this honour on a man who does so much for scholarship in Lincolnshire.
